

# Before you take your knowledge test

Here are a few helpful things you should know:

## Languages

We offer our passenger vehicle and motorcycle knowledge tests in the following 12 languages. Audio is also available for you to use if you need to hear the question: **English, Arabic, Cantonese, Croatian, Farsi, French, Mandarin, Punjabi, Russian, Spanish, Vietnamese, and Ukrainian.**

## Start the test

If the screen is black, please touch to activate it.

## Skip feature

During the test you will see an option to skip a question. If you find a question difficult, hit the *skip* button. The question will appear again at the end of the test. You may skip through all of the questions up to two times. \*The skip functionality is not available for the Class 1 and Air brake combined test.

## Status feature

You can always check the bottom of your screen to see how you are doing.

## Test will end

When you have correctly answered the required amount of questions or exceeded the number of incorrect answers allowed, the test will be complete.

## Take your time

Carefully read each question and all the answers before choosing. Some answers may have parts that are correct but are not complete.

## Clarify

If you are taking a passenger vehicle or motorcycle test, you may ask a staff member to help better explain a question you may not understand. We won't give you any hints but sometimes it helps to hear the question in a different way.

## After the test

At the end of the test, please take a seat and we will call you to talk about your results.

## Reminder

**NO DEVICE USE of any kind during your test.**

During your test, no talking, use of study materials, or electronic device use of any kind is permitted.

Any of the above will result in an automatic fail and time out from taking your next test.

**We want you to succeed.  
Good luck!**

Type of knowledge test	Number of questions on the test	Number of correct answer to pass (80% to pass on all tests)	Maximum time allotment (in minutes)
